Our classic design stretches a healthy 6,985 yards from the furthest of three tees. Framed on all sides by thick tropical vegetation, there is little to distract you from your game save the ocean breeze and an occasional cloud. The wind could prove confounding though as the layout serves up holes in every direction; elevated greens play very true but are often protected by Mr. Wilson's signature bunkering. There's plenty of time for a couple of rounds a day as they tend to average 3 hours.
