

TREASURE CAY PROPERTY OWNERS' ASSOCIATION TREASURE CAY,  
ABACO, BAHAMAS

**MARINE SECURITY ANNOUNCEMENT**

The Treasure Cay Property Owners' Association is pleased to announce the implementation of plans to provide improved marine security for all who use the waterways inside of Treasure Cay, via controlled access in and out of the channel to the marina and private residence docks. The entrance to the Treasure Cay channel north of the fuel dock is controlled with a cabled boom system between the hours of 11 PM and 5 AM. Security staff is available via channel 16 (Treasure Cay Marina) and land line (242-365-8899) to provide emergency access. Also, emergency docking for boats arriving at Treasure Cay during the above hours is available at the fuel dock, so that safe, accessible, lighted dockage is always be available. Numerous lighted signs have been installed along the channel so that boaters entering and leaving the harbor will be given sufficient advance notice when the boom is in place. Our Treasure Cay security teams is continuing their nightly boat patrols in the harbor and adjacent canals and our land based security guards are available to assist as necessary. This long awaited improvement to marine security is important for all boaters who live in or visit Treasure Cay. This is one more step taken together by the Treasure Cay Property Owners' Association and Treasure Cay, Ltd. to see that boaters have the security they need and deserve in Treasure Cay.
