

Community Update

September 13, 2019

As we continue to assess damage, work with our business partners to restore essential services and work to restore our beloved community of Treasure Cay, we will keep you updated here on a weekly basis. However, we will provide real time updates as and when needed.

If you haven't already done so, we encourage you to join us on social media at [facebook.com/treasurecayresort](https://www.facebook.com/treasurecayresort), where we will not only share real time news but where we will also share the stories of strength, perseverance and spirit of Abaconians in the midst of unimaginable destruction and loss.

On a positive note, we're happy to report that **Aliv Mobile service has been restored in Treasure Cay**. This will undoubtedly help pave the way for the road to recovery now that reliable communications are available.

Additionally, we are working closely with Rubis to repair our fuel station. Upon completion of the repairs, we will alert our neighbors immediately and provide instructions for refueling.

The Treasure Cay Beach, Marina & Golf Resort family is committed to providing the assistance and support necessary for Treasure Cay's recovery. It is our intention to rebuild.

Should residents of Treasure Cay have questions, we encourage you to contact info@treasurecay.com.
